ONE TRAY®
Sealed Sterilization Container

STERILIZATION MADE SIMPLE.

ONETRAY.COM

ONE TRAY® is an American made, lifetime warranted sealed sterilization container offering efficient instrument reprocessing in a fraction of the time it takes sterile wrap or other rigid containers.

REPROCESSING TIME SAVINGS EXAMPLE

ONE TRAY®
Sealed Sterilization Container

CONDITIONING 8–18 MIN → STEAM STERILIZATION 4 MIN

APPROX. 18–22 MIN

Ready for the OR **2 hrs+** sooner!

Watch this LIVE Knee Case Timelapse video showing **ONE TRAY**® vs Sterile Wrap.

OTHER PACKAGING METHODS

CONDITIONING 8–18 MIN → STEAM STERILIZATION 4 MIN → DRY TIME 30–60 MIN → COOL TIME 60–90 MIN

APPROX. 2.5+ HOURS

ADDITIONAL DRY AND COOL TIME REQUIRED

ONE TRAY® FDA CLEARANCES

IFU K052567
DRY TIME NOT REQUIRED, 48 HR STORAGE

Exposure	270°F (132°C)
Exposure	4 minutes
Dry Time	Not Required
Cool Time	Not Required
Validated Storage Period	48 hrs

IFU K250029
15 MIN MINIMUM DRY TIME, 365 DAY STORAGE

Exposure	270°F (132°C)
Exposure	4 minutes
Dry Time	15 min minimum
Cool Time	Varies according to load
Event Related Shelf Life/ Storage Period	365 days

PROCESSING KITS

The **ONE TRAY®** processing kits include single use disposable filters that permits the penetration of steam during the sterilization cycle and serves as a bacterial and fluid barrier at the conclusion of the sterilization cycle.

Kits include*:
- 3 Filters - disposable hydrophobic SMS Filters
- 1 Chemical Integrator
- 4 Locks with indicator dots - (2) Green for use with IFU K052567 and (2) Orange for use with IFU K250029
- 2 Load Cards - for easy identification

**Locks may come packaged separately*

*The validated performance of **ONE TRAY®** is in effect ONLY with the exclusive use of **ONE TRAY®** components, filters, and tamper evident locks.*
