EZ-TRAX®

Simplify Sets, Amplify Surgery

Reorganize Surgery.

Maximize reprocessing of orthopedic medical devices, reconfigure OEM sets, save time and cost, and change the game for surgery.

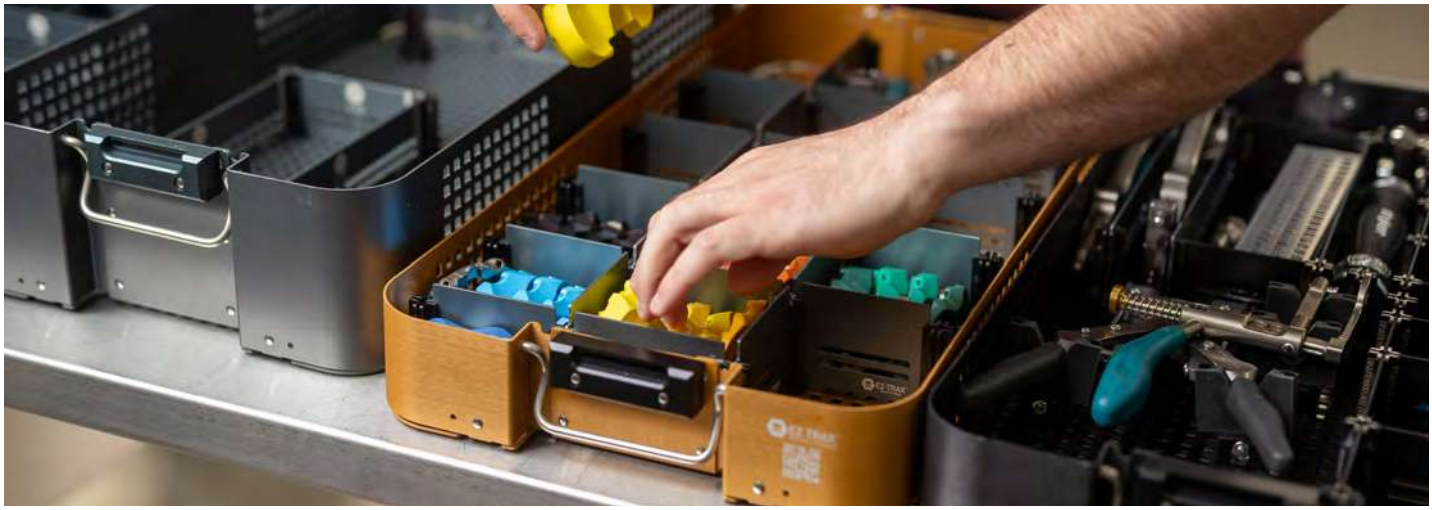

Reconfiguring for Results

Reconfiguring bulky orthopedic instrument sets into **EZ-TRAX**™ trays brings clarity and efficiency to every stage of the surgical process. These streamlined layouts often result in over 50% fewer trays, reducing assembly time, washer cycles, and sterilization demands in the SPD while also minimizing tray openings and freeing up critical back table space in the OR.

SCAN HERE to access a library of over 18 OEM sets, reconfigured in **EZ-TRAX**™. Examples below.

EZ-TRAX®
Simplify Sets, Amplify Surgery

Benefits for OEM's

- On-site reconfigured layouts
- Less instrumentation needed
- Shipping cost savings
- Consolidation of cases
- Shorter manufacturing lead time
- Modularity vs. redesign

Benefits for the SPD/OR

- Less instrument trays to set up and process
- ONE washer cycle vs. two
- ONE back table vs. two
- Less loaners needed (space savings)
- QR code scanning for set layout accuracy
- Efficiency gain in OR set up/tear down

Benefits for Surgeon's

- Universal instrument layouts
- Rapid room turnover
- More cases per day
- Time savings

Quicker Lead Time • Repurpose vs. Replace • Reconfigure

EZ-TRAX™ is 100% Made in the USA!

All components of **EZ-TRAX**™ are manufactured in the USA significantly reducing timelines for manufacturing. This creates delivery of custom tray layouts in a fraction of the time it takes other case manufacturer's. The unique design of **EZ-TRAX**™ allows for flexibility to adapt to changes that may occur during development of medical devices.

QR Code Technology

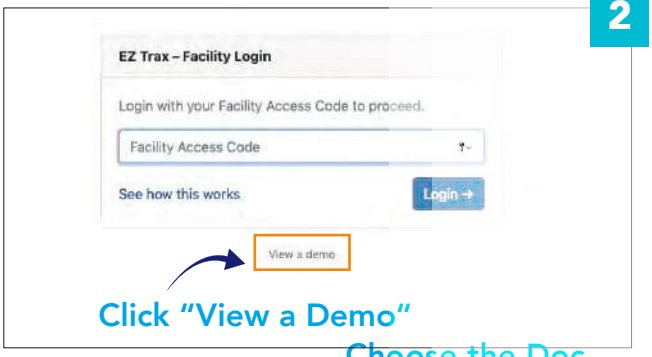

Each **EZ-TRAX**™ set has a customer configurable QR code that can include surgeon specific preference cards, pictures of **EZ-TRAX**™ layouts, cleaning instructions, technique guides, IFUs and any personalized or custom notes required. This gives quick access data, customizable to each facility and surgeon.

Experience it for yourself.
